Introduction Diving -Medical Form

We are pleased to welcome you in Ahla Dive Shop at the Red Sea. To make your experience comfortable and safe we ask you to read medical form about health. Note that not giving truthful answers will remove all responsibility from Ahla Dive.

Are you currently taking medication on daily basis? Are you or could you be pregnant? Do you suffer from: Problems with breathing / Heart disease / Sinusitis / Asthma / Ear inflammation / Diabetes / Fear of closed open spaces / Convulsions / Epilepsy / Do you have any other physical or mental restrictions? I know, that I'm not allowed to do any air flights during 6 hours after dive.

I know that after the beginning of attraction, and going into the water, money would not be returned to those, who decided to stop dive!

I am over 8 years old and I can dive!
